

## Federal Public Services

# A Partnership with Canadians

Public services play a vital role in the lives of all Canadians.

Public services keep Canadians healthy and safe, they ensure that our environment is protected and contribute to the jobs and prosperity that we all depend on.

Public services allow us to collectively use our resources to improve standards of living, build vibrant communities and a strong economy.

Public services reflect the fundamental Canadian values of fairness and equality of opportunity.

They support a better quality of life for all Canadians and contribute to our prosperity.

Dismantling public services is an attack on these values that leaves individuals, families and communities vulnerable and threatens the health of our economy.

We commit to protect the legacy of the next generation of Canadians, and defend public services from coast to coast to coast.

We pledge to promote and defend universal and accessible public services to ensure a better and stronger future for all Canadians.

Moncton, September 19, 2011.
